

DNA, RNA & Protein Purification

RNA , DNA e Proteine

N.° cat.	Descrizione	Q.tà	Prezzo €
BIO-38032	Trisure (Trizol)	100ml	150,00
BIO-38033	Trisure (Trizol)	200ml	275,00

For total RNA, DNA and proteins

Features:

- ready-to-use red solution*
- **one phase system**
- the red color allows easy visualization of the interphase
- 1 hour procedure (no CsCl gradient necessary)
- specially designed for liquid samples
- high and **reproducible** yields

Highest yields and purest total RNA in just 1 hour

Features:

- ready-to-use blue solution*
- one phase system: **only one pipetting step**
- the blue color allows easy visualization of the interphase
- 1 hour procedure (no CsCl gradient necessary)
- usable on all types of biological samples
- high yields of undegraded pure RNAs (e.g. **7-10 µg/mg** RNA from liver spleen)
- reproducible; OD_{260/280 nm} ratio >1.8

RNA Totale

N.° cat.	Descrizione	Q.tà	Prezzo €
CS 104 B	Rna Bee (RNAzol B)	100ml	205,00
CS 105 B	Rna Bee (RNAzol B)	200ml	390,00

Condizioni di fornitura :

Trasporto : Euro 10,00
IVA : Escl. e a Vs carico
